The final price depends on the selected fabric category. When multiple fabrics are combined on the same bed, the price is calculated based on the fabric category covering the largest area of the headboard.

For dimensions larger than 180×200 cm, the retail price increases by 10% for every 10 cm added to the bed's length or width.

A headboard wider than the bed adds an extra 10% to the total bed price for every 20 cm of additional width and/or 20 cm of height.

Price list valid until: 01.09.2026.
